

PLAN in grade 10 serves as the midpoint measure of academic progress in the series of longitudinal assessments that comprise a component of the ACT College Readiness System. The longitudinal assessments also include EXPLORE<sup>®</sup> (grades 8 and 9) and the ACT<sup>®</sup> (grades 11 and 12). All three programs share the same score scale, enabling educators to seamlessly document student progress in grades 8 through 12. PLAN is a powerful predictor of success on the ACT, an early indicator of college readiness, and a tool to help students explore careers that match their interests.
